

Book Download Instructions

SENDING FILES TO YOUR DEVICE

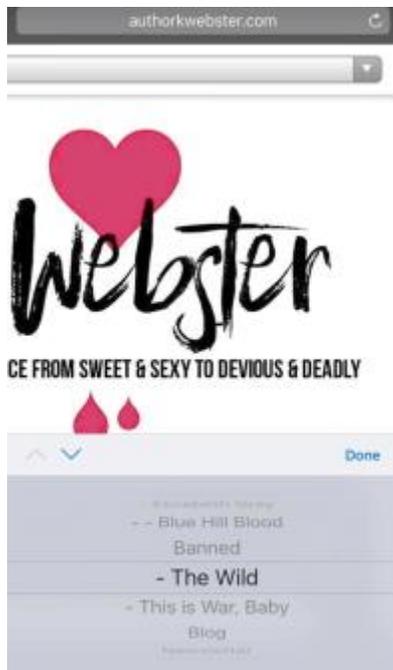

Before starting, make sure that you are set up to receive emails from yourself to your kindle.

You can add your email (and find your kindle email address) when you log in to your Amazon account.

- Click on **Your Content and Devices**.
- Then hit the **Settings** tab. Scroll down until you reach the **Approved Personal Document E-mail List** section.
- **Add a new approved e-mail address**. This is where you'll put in your own email address.

The book will be emailed to you in a kindle-ready format, so you'll need to send it on to your kindle. Once you've set yourself up to receive emails to your kindle from yourself, you're ready to go buy the book!

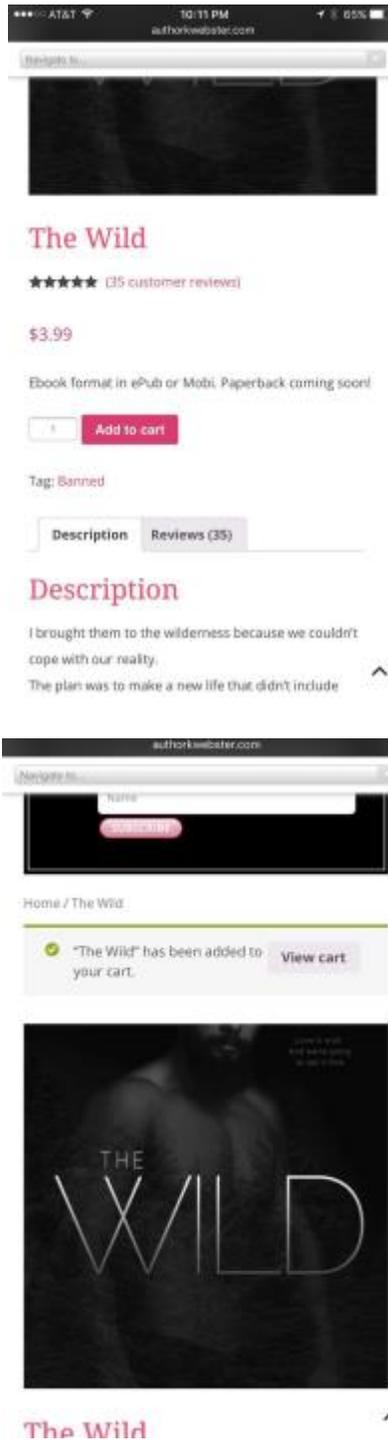

Remember, once you've set yourself up to do this, you won't have to do it again.

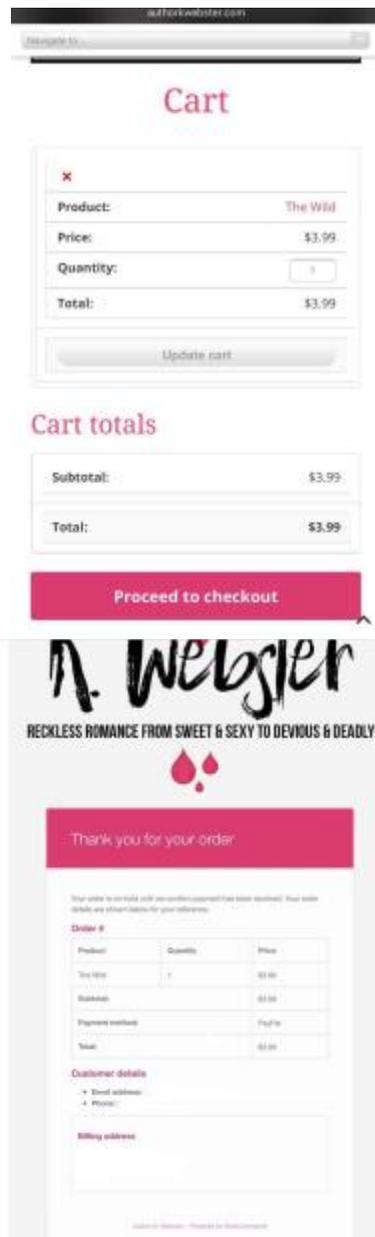

Select the book you are trying to buy. You will have two options. One, will be straight from my website. The other will be to buy from Gumroad.com. Either one is acceptable and is your choice.

INSTRUCTIONS FOR BUYING STRAIGHT FROM WEBSITE:

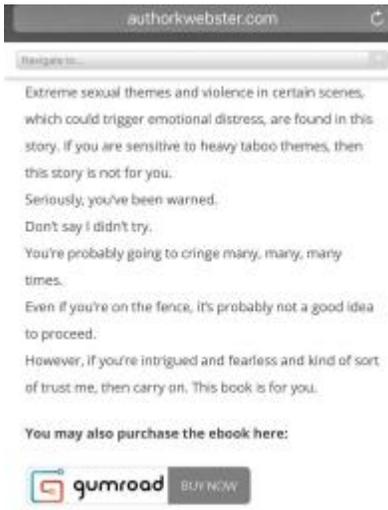

To buy straight from the website, you'll need to add the book to your cart. Then proceed to checkout. It will allow you to purchase it with your card or PayPal.

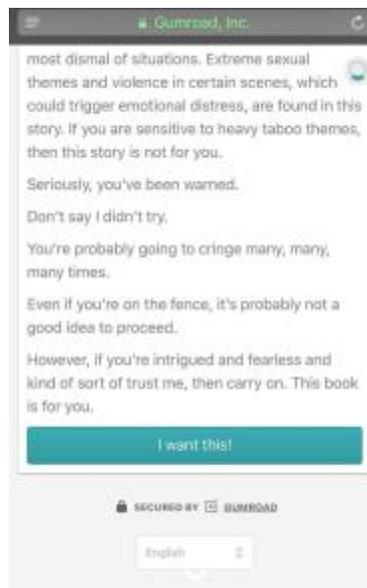

Then, you will receive an email that includes the file. You'll need to select "mobi" to download. That is the file you'll then want to email to your kindle email address. It should show up on your kindle not long after you email it. If it doesn't show up right away, try restarting your kindle. If it still doesn't show up, please contact support@authorwebster.com so that we may assist you.

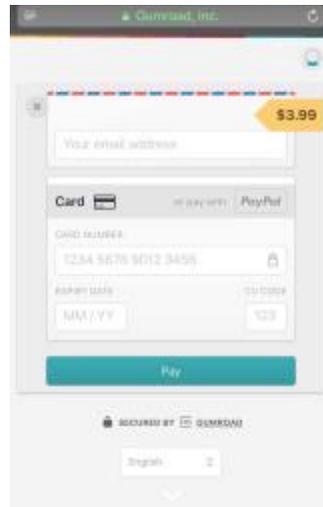

INSTRUCTIONS FOR BUYING FROM GUMROAD:

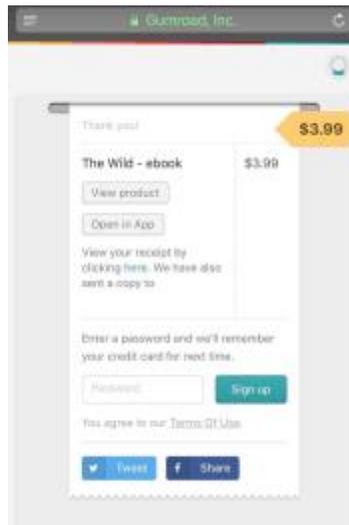

Choose the Gumroad “buy now” button.

Click on “I want this!”

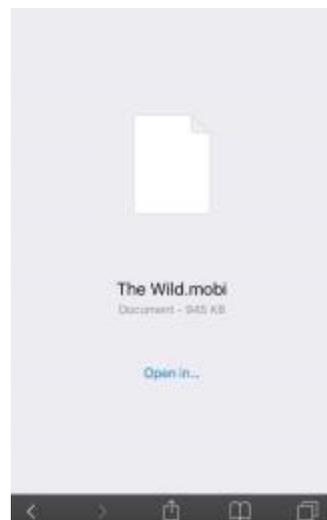

Complete your card info and pay.

Then, you have the choice to read it in the Gumroad app or to send to your device. If you want to send to your kindle, choose "View Product."

Select download.

It will show you this (your mobi file) and you'll need to choose the blue "Open in..." button. There, it will have an option for your kindle app. Select that and it will send it there.

If you are having any trouble whatsoever, please email support@authorkwebster.com and we will help you. Thank you!
